**Date :** \_\_\_\_\_ **Name and title :** \_\_\_\_\_

**Signature:** \_\_\_\_\_ **Company stamp :** \_\_\_\_\_

## Instructions

N° §	<b>Instructions to be read carefully before completion of this form</b>
1	Insert the name, address, and country of the supplier.
2	Insert the name, address, and country of the manufacturer (if different from the supplier).
3	Indicate the commercial name of your commodity, the associated supplier/manufacturer part number and the HS code number
4	<p>Indicate the classification of your commodity with respect to your national/domestic export control regulations. Indicate if your commodity is controlled or not under the regulations related to:</p> <p>1) dual-use controlled commodity (used for both civil and military applications)            2) military controlled commodity (design and modified specifically for military application)</p> <p>Example : in Europe, the goods and technologies controlled as dual-use are identified in the EU regulation# 428/2009</p>
5	<p>Indicate the classification of your commodity if it is subject or not to US export control regulations.</p> <p>1) EAR : Export Administration Regulations            =&gt; Identify the Export Control Classification Number (ECCN) and confirm the need to apply for a license.</p> <p>2) ITAR : International Traffic in Arms Regulations            =&gt; Identify the USML category and specify if your commodity is controlled as Significant Military Equipment (SME).</p>
6	<p>Indicate if your commodity is subject to a third country regulation.</p> <p>If yes, indicate the export control classification number and the country of jurisdiction.</p>
7	<p>Identify the components integrated into your commodity subject to export control regulations (use annex if necessary).</p> <p>Example: a product manufactured in France or abroad might integrate a component subject to US regulations. List the U.S. components/content embedded in the item/commodity. In particular indicate U.S. component/content of the item/commodity which is classified under ECCN 500/600 series</p>
8	<p>This form must be dated, stamped, duly signed by your company and sent back to ArianeGroup by email. If this form is not fulfilled completely and/or correctly it will be sent back to you for modifications.</p>
